

Summary

Driven by innovation Fifth-year Addis Ababa University student studying biomedical engineering with expertise in human-centered design and full-stack web development. I improved my technical and problem-solving skills by doing an internship at Infinity Advanced Technology Solutions and using Evangadi Network's boot camp to create scalable web applications. I'm eager to leverage my experience in web development, focusing on creating seamless and user-friendly digital experiences through effective software integration.

Languages

- Amharic (Native),
- English (Fluent)

Hobbies

- Reading,
- Research,

Project and research

Learning Management System (LMS)

Tech: React, Node.js, MongoDB, Tailwind CSS

Fasil Alemu

+251 953252619 | fasil.alemu-ug@aau.edu.et | Addis Ababa

Education

Addis Ababa University

Bachelor of Science in Biomedical Engineering (Expected Graduation: July 2025).

Evangadi Network

Full-Stack Web Development Boot Camp | 2023–2024

High School, Nefas Mewucha, Ethiopia, 2008-2019

Experience

Infinity Advanced Technology Solutions

Biomedical Engineering Intern | November 2024 – January 2025

Skills

- Programming:** Python, Java, JavaScript, SQL
- Web Development:** HTML/CSS, Next.js, Tailwind CSS, RESTful APIs, Node.js
- Databases:** MongoDB, SQL
- Tools:** Git/GitHub, VS Code, Chrome DevTools
